## **BOOK SYNOPSIS**

This volume presents detailed statistics about the circumstances of personal injury road accidents. Some 50 data items are collected by the police STATS19 system for each accident, including the time and location of the accident, the types of vehicles involved and what they were doing at the time of the accident, as well as some information on the drivers and casualties involved. In 2009 there was a reported total of 222,146 casualties of all severities (4 per cent lower than 2008). Of those, 2,222 people were killed in road accidents, 316 fewer (12 per cent lower) than in 2008. It has long been known that a considerable proportion of non-fatal injury accidents are not reported to the police and the current best estimate is that the total number of road casualties in Great Britain each year is around 700,000. In addition to the detailed tables there are seven articles containing further analysis on specific road safety topics: an overview and trends in the police data; valuation of road accidents and casualties; drinking and driving; contributory factors in road accidents; survey data on road traffic accidents, including an overall estimate of total casualties; hospital admissions data on road casualties; road safety research. The statistics in STATS19 were reviewed recently and some changes recommended. Also, a new electronic police accident reporting system, CRASH, for secure collection, validation, transmission and storage of road traffic collision reports, is to be introduced in 2011 and 2012.

### **ROAD CASUALTIES - GREAT BRITAIN TITLE WAS ROAD ACCIDENTS -**

**GREAT BRITAIN 2008** - Are you looking for Ebook Road Casualties - Great Britain Title Was Road Accidents - Great Britain 2008? You will be glad to know that right now Road Casualties - Great Britain Title Was Road Accidents - Great Britain 2008 is available on our online library. With our online resources, you can find Applied Numerical Methods With Matlab Solution Manual 3rd Edition or just about any type of ebooks, for any type of product.

Best of all, they are entirely free to find, use and download, so there is no cost or stress at all. Road Casualties - Great Britain Title Was Road Accidents - Great Britain 2008 may not make exciting reading, but Applied Numerical Methods With Matlab Solution Manual 3rd Edition is packed with valuable instructions, information and warnings. We also have many ebooks and user guide is also related with Road Casualties - Great Britain Title Was Road Accidents - Great Britain 2008 and many other ebooks.

We have made it easy for you to find a PDF Ebooks without any digging. And by having access to our ebooks online or by storing it on your computer, you have convenient answers with Road Casualties - Great Britain Title Was Road Accidents - Great Britain 2008. To get started finding Road Casualties - Great Britain Title Was Road Accidents - Great Britain 2008, you are right to find our website which has a comprehensive collection of manuals listed.
