## BOOK SYNOPSIS

Can you make your own bread (sans bread machine)? Grow a garden all winter? What can you use instead of toilet paper? What if the power went out for a month? What if the grocery store closed? Can you make a solar oven? Store food without electricity? Raise a water buffalo? Make fine linen from stinging nettle? Make your own shampoo? Deliver a baby? Is it possible to be totally self-sufficient? This massive, full-color book answers all these questions and thousands more and includes checklists, diagrams, and instructions on how to buy a sheep. All of the information included meets these criteria: It is something that anyone can do, without special training. It can be done with relatively few supplies or with stuff you can make yourself. It has been tried and tested—either by the author, the military, doctors, or other homesteaders. The Ultimate Guide to Homesteading is not a storybook or a cookbook. It is a practical guide with nitty-gritty details on everything a homesteader can do, step-by-step with hundreds of color illustrations and pen and ink sketches. You can do it! This book can help.
